Build Steps
Post-build Actions
Set up automated actions that start your build based on specific events, like code changes or scheduled times.
Trigger builds remotely (e.g., from scripts)
Build after other projects are built
Build periodically
Schedule
* * * * *
Do you really mean "every minute" when you say "* * * * *"? Perhaps you meant "H * * * *" to poll once per hour
Would last have run at Wednesday, October 21, 2026, 10:17:00 AM Coordinated Universal Time; would next run at Wednesday, October 21, 2026, 10:18:00 AM Coordinated Universal Time.
GitHub hook trigger for GITScm polling
Poll SCM
Environment
Configure settings and variables that define the context in which your build runs, like credentials, paths, and global parameters.
